Online Patient Portal

The Quality Health and Wellness Clinic is providing a web-based system for patient use. The Patient Portal allows you to schedule appointments, access your medical records, and more.

The Patient Portal is secure, easy to use, and available to you year round. This system requires a user name and password. You must visit the Quality Health and Wellness Clinic in person to get your login information. Printed below is a summary of how to access the system. Please do not share your login information with others to ensure privacy of your medical information. The Quality Health and Wellness Clinic does not share individual patient health information with anyone without prior authorization from the patient (or, in the case of a minor, the patient’s parent or legal guardian).

**Patient Portal “NextMD”**

**USES & BENEFITS**

- Schedule appointments online
- Contact a Quality Health and Wellness Clinic provider
- Request a refill for a prescription
- Access your medical records
- Utilize interactive health tools
- Search health topics
- And much more!

**GETTING STARTED**

To log in for the first time, go to:
https://www.nextmd.com/

1. Enter the enrollment token provided by the Quality Health and Wellness Clinic and your email address in the login screen.

2. Choose a user name and password. Your user name and password are case sensitive.
   
   Your user name must be at least 6 characters long and cannot be more than 20 characters long. Your password must be at least 6 characters long, cannot be more than 20 characters long, and must contain at least one number.

3. Select a Login Security Question from the list and provide your answer for this question. Since your patient portal account contains confidential medical information that must be protected, you will have to provide the answer to the Login Security Question whenever you log in.

4. Set up the patient portal's secure password reset feature. The patient portal will ask you to select a question and provide an answer to it. If you forget your password, you will have to answer this question again to reset it.
